

A Distribution Fitting Results

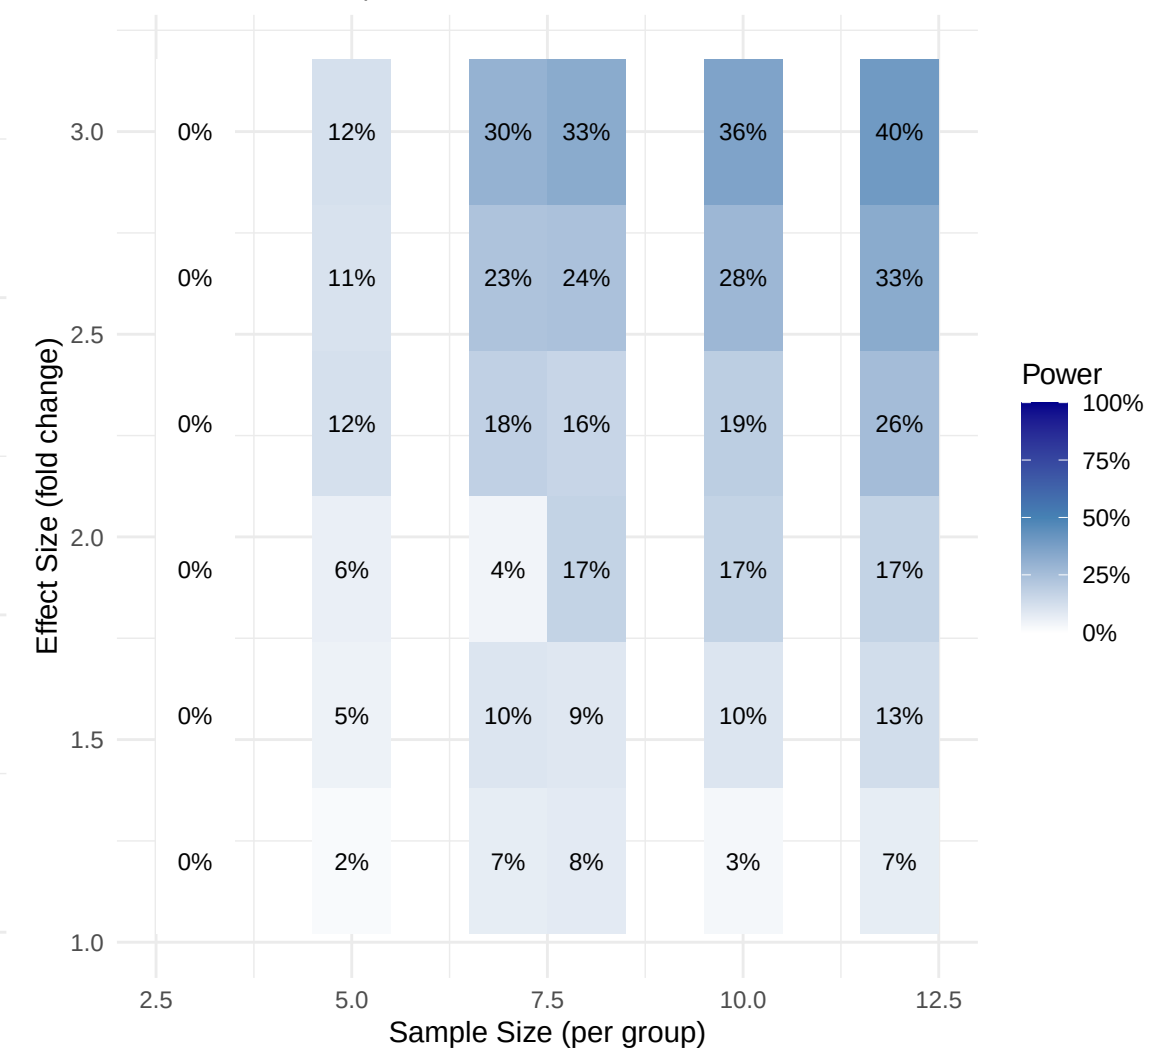

B Test Performance Comparison

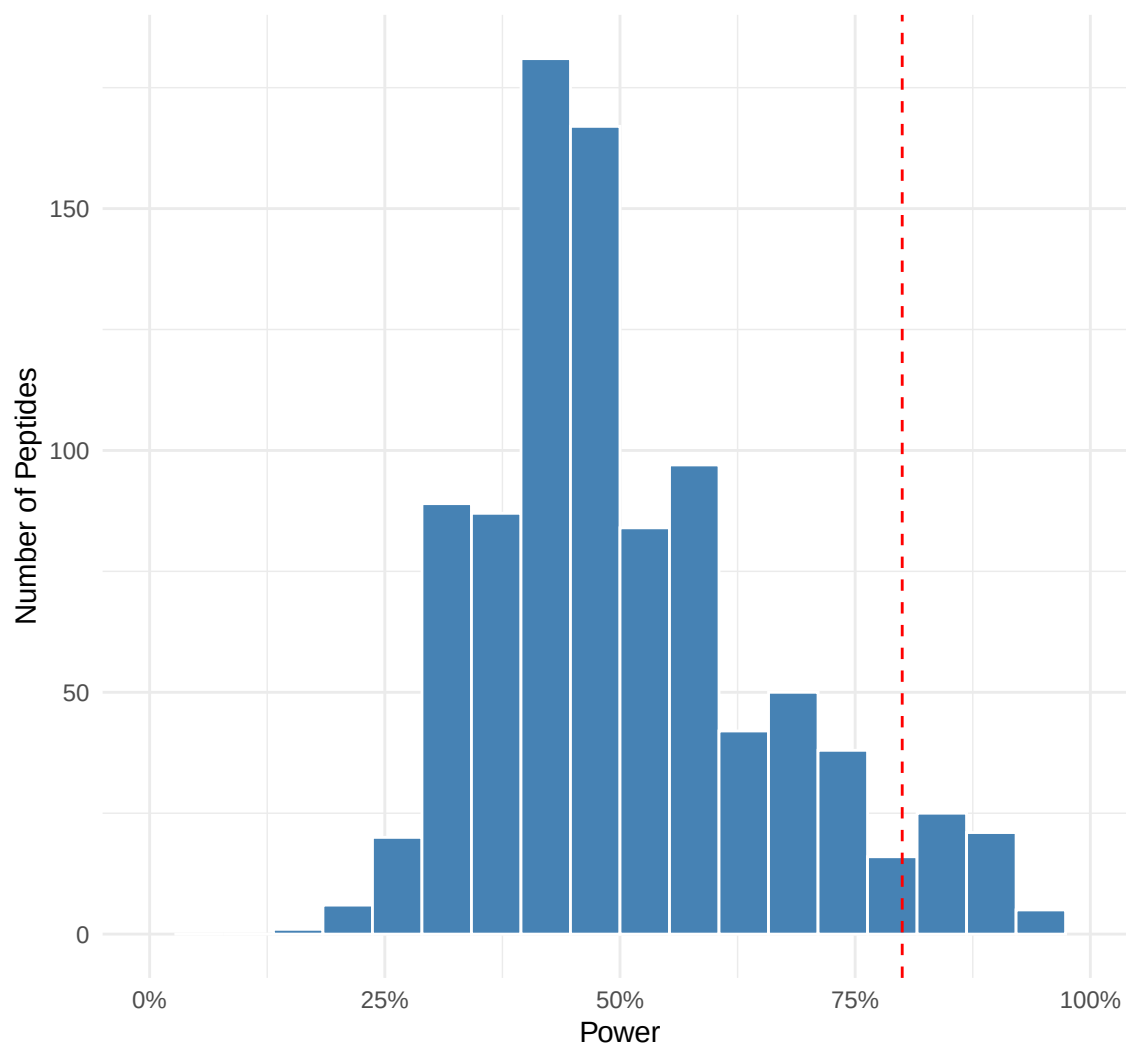

C Experimental Design Guidance

Distribution: Inorm | Test: wilcoxon

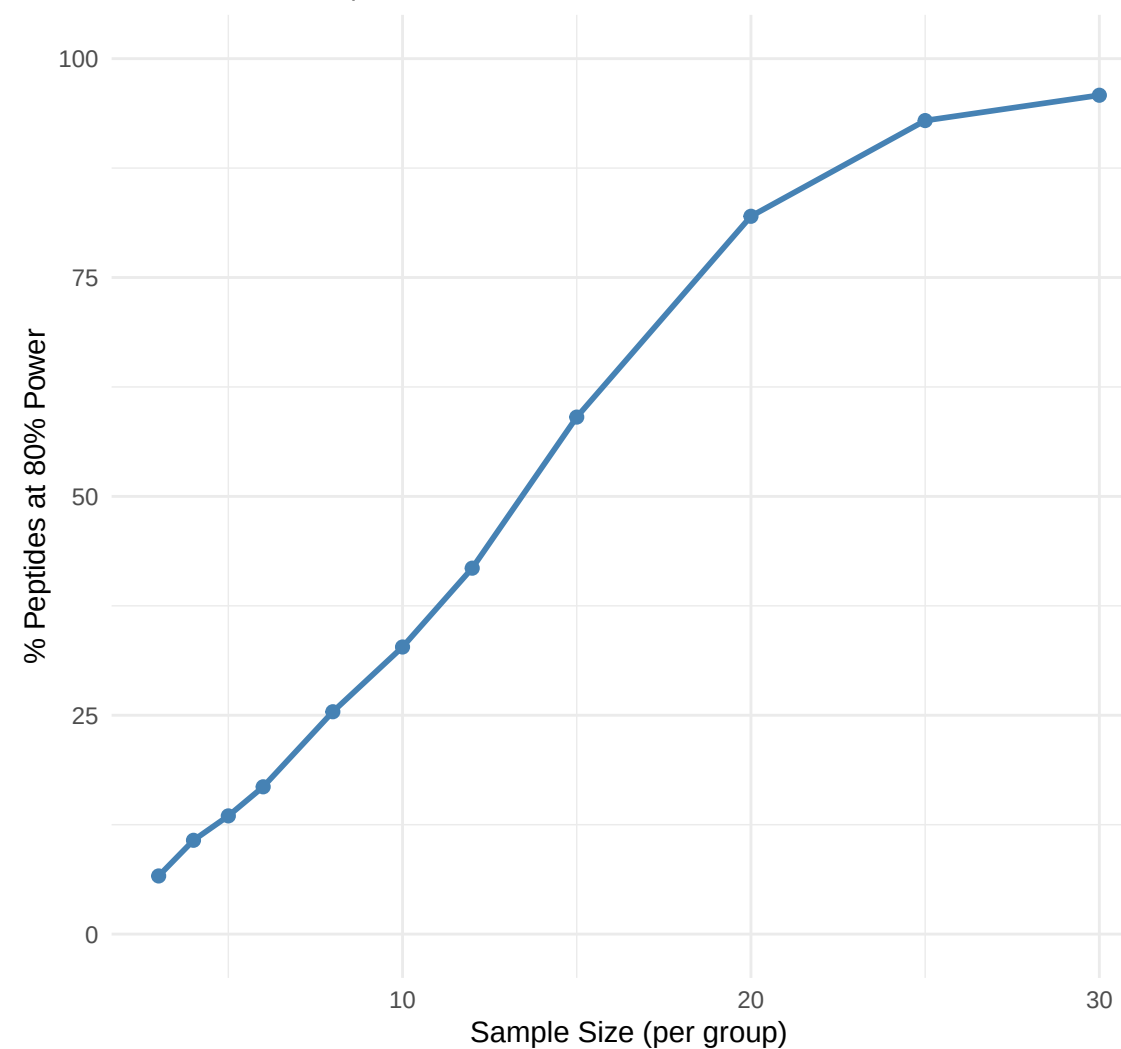

D Q1: Current Power (N=3, 2-fold)

N=3, Effect: 2-fold

E Q2: Sample Size for 80% Power

Effect size: 2-fold | 50% of peptides must reach 80% power

F Q3: Minimum Detectable Effect

N=3 per group | 50% of peptides must reach 80% power
